

Dan Oprita

IT SPECIALIST

Summary

I have more than 7 years of experience in the IT field, providing technical support for various applications and dealing with several technologies and customers. The main field of work was on Product Data Management using specific software but I have also been in touch with technologies like Linux, Java, Oracle SQL. At this point in time I'm focused on learning web development so I'm attending specific courses (HTML&CSS, JavaScript, Angular) and developing websites (for myself and for friends).

Area of interest:

- JavaScript / Angular
- Web development
- Software development
- Object oriented programming
- Agile / Scrum

Experience area:

- Software technical support
- Linux administration
- Product Lifecycle Management
- Siemens Teamcenter
- Catia 3D design

SKILLS

- Linux and Windows server administration
- CAD 3D design, Catia V5 software
- ITIL processes
- JBoss, Webserver
- Product Lifecycle Management methodology
- Application testing, requirement engineering
- Java/Swing, Agile, OOP
- JavaScript, HTML&CSS, Bootstrap

CERTIFICATIONS

- Front End Development (HTML, CSS, JS)
- Catia V5 Part Design specialist
- Catia V5 Assembly Design specialist
- ITIL V3 Foundation

COURSES

Personal training:

- JavaScript / HTML / CSS - attended an 100h classroom certified course
- Angular 4 - current self learning

Internal company training:

- Java / Swing - classroom course
- Linux foundation - classroom
- Siemens Teamcenter
- Webserver (Tomcat, WebSphere)
